PROFESSIONAL SUMMARY

Results-driven Full-Stack & Backend Web Developer and PMP® Certified Senior Civil Engineer combining over 10 years of structured project leadership, quality assurance, and technical execution with modern software engineering (Laravel, PHP 8+, React, Vue.js, WordPress). Proven track record of leading multidisciplinary teams, delivering complex infrastructure projects up to 750 million EGP, reducing defects by up to 20%, and building clean, secure, scalable web architectures, REST APIs, and responsive user interfaces.

CORE TECHNICAL & MANAGEMENT SKILLS

Backend & Web Development	PHP 8+, Laravel, RESTful APIs, Database Schema Design (DB Schema), Authentication & Security, Automated Testing, Clean Code Architecture
Frontend & CMS	React, Vue.js, Tailwind CSS, Responsive UI/UX, WordPress Custom Theme Development, Timber, Twig, Advanced Custom Fields (ACF Pro)
Version Control & Dev Tools	Git, GitHub, Agile & Scrum Methodologies, MS Office Suite
Engineering Software	AutoCAD, SAP2000, ETABS, CSI Design Group
Project & Site Management	PMP® Project Management, QA/QC Inspection & Testing Plans, Scheduling (Gantt Charts), Cost & Procurement Control, Risk Assessment, OSHA Safety Compliance, Team Leadership & Mentoring

PROFESSIONAL EXPERIENCE

Web Development Intern (Full-Stack & Backend)
July 2026 – Present

iNetwork | Remote / Egypt

- Collaborate within an agile engineering team to develop and maintain production web applications and custom digital solutions.
- Architect backend logic, database schemas, and custom templates while ensuring clean code standards, security, and responsive performance.

PHP Web Developer & Designer
February 2026 – April 2026

Createivo (Web Development & Design Department) | Mansoura, Egypt

- Developed and designed dynamic websites and backend features using PHP and Laravel, delivering reliable and scalable client solutions.
- Partnered with cross-functional development teams to execute web projects from requirements analysis through deployment (certified experience).

Senior Site Civil Engineer & Team Leader
September 2019 – October 2022

Al-Amin Construction & Contracting | District No. 12, 10th of Ramadan, Sharqiyah, Egypt

- Led day-to-day site operations, supervising junior engineers, site supervisors, and subcontractors to deliver complex civil projects on schedule.
- Implemented rigorous QA/QC programs, reducing construction defects by 20% and improving overall site operational efficiency by 15%.
- Optimized construction costs through diligent evaluation of materials and suppliers while maintaining strict adherence to design specifications and building codes.
- Reviewed engineering plans, shop drawings, quantity calculations, and daily progress reports prior to submission to the Construction Manager.
- Coordinated inspection and test schedules with the Quality Control Department, enforcing corrective actions and site safety standards.

Senior Structural Engineer
October 2016 – August 2019

Housing & Building National Research Center (HBRC) | Social Housing Districts & Al-Andalos, 10th of Ramadan, Sharqiyah, Egypt

- Supervised three large-scale social housing projects valued up to 750 million EGP, managing scheduling, quality production, cost control, and procurement.
- Monitored project milestones and deadlines using Gantt charts and project management software, achieving 98% on-schedule task completion and reducing delays by 15%.
- Coordinated design and construction execution across architects, contractors, and multidisciplinary engineering teams in compliance with national building codes.
- Inspected incoming construction materials against technical specifications and planned contractor workflows to maintain continuous site progress.

Site Civil Engineer
September 2015 – October 2016

Abnaa Sahmoud for Building and Constructing | District No. 11, 10th of Ramadan, Sharqiyah, Egypt

- Executed site setting-out works in accordance with approved drawings and specifications, overseeing reinforced concrete works and architectural finishes.
- Liaised with planning engineers, employer representatives, suppliers, and subcontractors to resolve technical issues and enforce Inspection and Test Plans (ITP).
- Conducted regular site safety inspections and supervised construction crews to ensure full compliance with safety and quality procedures.

EDUCATION

Bachelor of Science (B.Sc.) in Civil Engineering
Graduated: 2014

El-Shorouk Academy – Faculty of Engineering, Department of Civil Engineering | Graduation Project: Foundation Design (Grade: Excellent)

CERTIFICATIONS & SPECIALIZED TRAINING

Certification / Course	Issuing Organization / Focus Areas	Year
Project Management Professional (PMP®)	Project Management, Agile Methodologies, Scrum Roles, Events & Artifacts	**2024**
OSHA General & Construction Safety	Risk Assessment, Work Permits, Scaffolding, Cranes & Lifting, Confined Space, Firefighting, Emergency & Safety Reporting	**2023**

Certification / Course	Issuing Organization / Focus Areas	Year
Structural & Engineering Software Suite	CSI Design Group (2015), SAP2000 (2014), ETABS (2014), AutoCAD (2013–2014), MS Office (2016)	**2013–2016**
Professional Site Engineering Diploma (120 Hours)	Eng. Hassan Kandeel Office – Practical Site Execution & Supervision	**2014**
Field Engineering Training – Water Station Project	The Arab Contractors (10th of Ramadan, Egypt) – Concrete Works & Architectural Finishes	**2011**

ADDITIONAL INFORMATION

Languages: Arabic (Native), English (Upper Intermediate – B2) | **Personal Details:** Date of Birth: October 1, 1992 | Nationality: Egyptian | Marital Status: Single
